

DOUGLAS VICTOR OVER MAYS IN PITCHING DUEL

GIANTS DEFEAT YANKEES AGAIN; SCORE IS 2 TO 1

"Shufflin' Phil" Douglas, Spittball Artist, Has the Better of Underhanded Carl Mays

WARD'S ERROR IS COSTLY

Snyder's Two Base Clout Following Miss of Easy Grounder Decides Contest

Score by innings:
Yankees .010 000 000—1 8 1
Giants .000 100 10x—2 6 0
Batteries: Yankees, Mays and Schang. Giants, Douglas and Snyder.

Polo Grounds, N. Y., Oct. 12.—(By the A. P.)—The Giants won a nerve-racking pitching battle from the Yankees this afternoon by a score of 2 to 1. The spitballer Douglas won the decision by a hair-line over the underhanded finger, Mays. Ward's error of an easy grounder after two were out in the seventh and Snyder's two base hit laid the American leaguers low. The series now stands, Giants 4; Yankees 3.

The Giants must capture one more game to take the series.

FIRST INNING.
YANKEES—Fewster flied out to Young who made a nice running catch to the wall. Park doubled to left. Frisch threw out Miller. Peck going to third. Douglas knocked down Mays' ground ball and threw him out. No runs, one hit, no errors.

SECOND INNING.
YANKEES—Pipp doubled up against the leftfield fence. Ward sacrificed. Frisch to Kelly. Pipp scored on McNally's single to right. Schang forced. Bancroft to Rawlings. Mays lined to Rawlings. One run, two hits, no errors.

THIRD INNING.
YANKEES—Fewster got a single to left, but went out stretching it. Mays to Bancroft. Peck got a Texas leaguer to left. Miller popped to Bancroft. Mays fanned. No runs, two hits, no errors.

FOURTH INNING.
YANKEES—Pipp grounded out to Kelly unassisted. Douglas tossed out Ward. Baker flied out to Frisch. No runs, no hits, no errors.

FIFTH INNING.
YANKEES—Douglas threw out Schang. Rawlings threw out Mays at first. Fewster fanned. No runs, no hits, no errors.

SIXTH INNING.
YANKEES—Peck flied out to Miller. Frisch threw out Miller. Mays flied out to Young. No runs, no hits, no errors.

SEVENTH INNING.
YANKEES—Mays lined out to Douglas. Ward put up a high fly to Burns. Baker singled into center. Schang singled into center. Baker going to third. Schang went to second on a wild pitch. Rawlings threw out Mays. No runs, two hits, no errors.

EIGHTH INNING.
YANKEES—Douglas threw out Fewster. Peck struck out. Miller walked. Bancroft threw out Mays at first. No runs, no hits, no errors.

NINTH INNING.
YANKEES—Rawlings threw out Pipp. Ward flied out to Burns. Baker got a single through Kelly. DeVore ran for Baker. Douglas threw out Schang. No runs, one hit, no errors.

HERE TO FIGHT GOULD DIVORCE

Mrs. Frank J. Gould, stopped on her arrival in America, to arrange with her lawyers to contest the divorce recently granted her husband in the French courts. She will return soon to London to fulfill theatrical engagements.

PREPARATION FOR DISARMAMENT CONFERENCE IS BEGUN BY U. S.

Secretary of State Hughes Calls Delegates to Washington to Sift Mass of Data and Form Program

Washington, Oct. 12.—The month of careful preparation for the American government's part in the disarmament conference began today with the first meeting here of the four delegates selected by President Harding to speak for the United States. Diplomatic, military and naval data of a specific nature already had been compiled for the guidance of the delegates but the real task of shaping the whole mass of information together and building upon it a constructive program remained to be done by the delegates themselves in the long series of meetings that will precede the opening of the conference on November 11.

Today's meeting was designed to do no more than scratch the surface of the problem ahead of the American representatives. It was called by Secretary Hughes, head of the delegation, to permit of a preliminary survey of the situation and of a general outline of the things to be done.

JOBLESS CONFAB WILL END SOON

Presentation of Reports of Subcommittee is Continued

Washington, Oct. 12.—Recommendation that Secretary Hoover select a representative committee from the various elements interested in construction such as financiers, labor, engineers, architects, contractors and material manufacturers to coordinate community action for improvement in the building industry was made in the report of the committee on construction industry to the conference.

The report declared the construction problem was one for local action by governors and mayors in cooperation with such a committee.

Washington, Oct. 12.—Presentation of complete reports of subcommittees was continued today before the national conference on unemployment with the detailed recommendations of the committee on shipping, construction and public works for the permanent betterment of business and employment scheduled to make their appearance.

PLAN AUTHORITY FOR SEC. MELLON

Washington, Oct. 12.—A committee of which the secretary of the treasury would have full authority to fix terms for funding and refinancing of the foreign debt under provisions of a bill ten years ago, today by the house was authorized by the committee.

ASSUMPTION OF POWER BY SINN FEIN ASSAILED

British Raise Question When Considering Alleged Breaches of Irish Truce

IRISH ALSO COMPLAINING

Say That British Government Leaders Allow Leaks From Conferences

London, Oct. 12.—By the Associated Press)—The British and Irish delegates pending a resumption of the Irish conference tomorrow were today considering alleged breaches in the truce in Ireland and endeavoring to devise means by which they might be avoided during the negotiations looking to a settlement in the future of Ireland.

This was the first officially faced by the conference, the assumption by the British government of the truce in Ireland, having caused much irritation here. Actual outbreaks or conflicts with the Crown Forces are regarded as less serious than the virtual ousting of the British authorities by the Sinn Fein courts and police as the Crown Forces cannot without breaking the truce take action against this policy as part of the Sinn Fein.

Under the terms of the truce the Crown Forces must not carry arms which the British government alleges the Sinn Feiners do.

The Sinn Fein, which has carried out religiously its agreement regarding publication of the proceedings in the conference, complained this morning that there had been leaks on the government side and said this was another matter which they shall demand a remedy.

PRISONER BREAKS LEG IN GETAWAY

Jamestown, N. D., Oct. 12.—Marcellus Reinhold of Streeter, bound to the district court under an arrest charge, caused his way through the second floor of the Stutsman county jail last night, and dropping from the second floor, broke a leg.

RAIL STRIKE IS UP TO LEADERS

Chief of Three Brotherhoods Consider Action

Chicago, Oct. 12.—Today's conferences of the general chairman of the railroad conductors, engineers and firemen's brotherhoods, threatening their decision on a strike vote by the members last night were expected to draw nearer a definite conclusion and perhaps reach final action by tonight.

MEAT CUTTERS VOTE A STRIKE

With 15,000 Votes Tabulated, 85 Per Cent Favor Walkout

Chicago, Oct. 12.—With 15,000 votes tabulated, 85 per cent of the packing house workers who voted last Saturday on the question of authorizing the executive committee of the Amalgamated Meat Cutters and Butcher Workmen of North America to call a strike if they deem it necessary are in favor of a walkout.

SCHOOLS CLOSED ON COLUMBUS DAY HERE; K. OF C. CELEBRATES IN FARGO TONIGHT

Public schools were closed today because of Columbus Day. Most of the offices in the state house also were closed, although the supreme court held a session today, and handed down a decision. County offices were closed. Buses in Bismarck did business as usual.

ATTEMPT MADE TO KILL WOMAN KU KLUX KLAN LEADER

THREATS MADE TO GET ANOTHER LEADER OF THE KLAN

400 INQUIRIES RECEIVED IN MONTH CONCERNING NO. DAKOTA FARM LANDS

People from many sections are turning their eyes toward North Dakota farm land. Real estate dealers who have been out of the state, particularly in middle western states, have found this to be true. The state immigration department reports that within the last month there have been approximately 100 inquiries for information concerning North Dakota lands. Most of the inquiries are in response to advertising.

WOMEN JURORS HOLD OUT FOR FREEING GIRL

Cleveland, Ohio, Oct. 12.—Marion McArdle, 20-year-old daughter of Mrs. Eva Katherine Kaber, was found not guilty of complicity in the murder plot against Daniel Kaber, her step-father, by a jury today. Miss McArdle was permitted to leave the courtroom a free girl immediately after the jury reported. The jury of nine men and three women had the case under deliberation since yesterday afternoon.

SUPREME COURT UPHOLDS WEHE DECISION AGAIN

Decides Judge Nuessle Correctly Interpreted Order of the Appellate Court

HAD REINSTATED WEHE Nuessle Held Governor Frazier Had Illegally Suspended and Removed Wehe

The supreme court today affirmed the order of Judge Nuessle of district court, issued in the case of L. J. Wehe, formerly a member of the workmen's compensation bureau. The decision was 3 to 2, Judges Robinson and Grace dissenting.

EARLY VOTE ON TAX REVISION BEING SOUGHT

Chairman Penrose of Finance Committee Hopes to Get Bill to President Soon

Washington, Oct. 12.—Without a dissenting vote the senate today struck out from the tax revision bill the section imposing a tax of 1 cent for each 25 cents or fraction for the transportation of parcel post packages, the change to be effective next January 1. This completed adoption of the compromise plan for repealing all transportation taxes.

Washington, Oct. 12.—An agreement with the Democratic leaders for a final vote on the tax revision bill the last of next week or early in the week following is to be sought soon by Chairman Penrose of the senate finance committee. If such an arrangement can be made Senator Penrose believes the measure can be sent to the president before the end of this month, though this would give less than a week for a conference agreement between the house and senate.

LEGION ELECTS NEW OFFICERS

Annual Meeting of Lloyd Spetz Post to Be Held Tonight

The Lloyd Spetz Post of the American Legion will hold its annual meeting tonight in Legion hall at 8 o'clock. Election of officers is on the program. Commander W. C. Paulson is the retiring commander. No candidates have been announced.

A smoker will be held and lunch will be served.

Appeal from the district court of Burleigh county, Nuessle, J. Defendant appeals from an order denying motions for an amendment and modification of a judgment.

For Curious Opinion Grace, C. J., dissenting. Robinson, J., dissenting.

Wm. Lenke, attorney general, Geo. K. Foster, assistant attorney general, Philip Elliot and Chester A. Marr of Bismarck, N. D., for appellant. Theodore Kappeler and J. J. White, both of Bismarck, N. D., for respondent.

St. Louis, Oct. 12.—Sol Kaufman, a traveling jewelry merchant of New York, after being bound and gagged in his room at a local hotel asserted, according to police, that he had been robbed of virtually his entire stock of jewelry valued at \$60,000.

CITY HALL DESTROYED Dodge, N. D., Oct. 12.—The city hall here was practically destroyed by fire which was of unknown origin. The city lighting plant in the building was destroyed. The loss is around \$2,500.

FLASHER TOUR IS DESCRIBED BY G. H. RITTER

Dairy Expert Quotes Records and Tells of Developments of Various Herds

SHOWS WHAT CAN BE DONE

Tells How Many Farmers Started Into Dairying and Progress Made

Great interest in dairying now is manifest throughout the Slope country. Recently a tour was made of the Flasher Holstein circuit. The tour is described in the following article by G. H. Ritter, superintendent of the circuit who also gives detailed information of interest to any farmers contemplating a change to the dairy business.

For some time past the county agents of Morton and Grant County had planned to tour the Flasher Circuit with farmers and dairymen from other parts of the counties, to see what had been done on the Flasher Circuit during the past year, so it was finally decided to make the tour on Oct. 5th and go over the circuit that day and see all the herds and the farms on which they were kept, and to hear the records that the different cows had made during the past year.

The tour started at the Peter Vandenberg farm near Lark. About 20 autos loaded with people saw the herd there. Five grade Shorthorn and Hereford cows were on test during the past year, the average production of which was 3787.0 lbs. milk and 208.81 lbs. butter for the year. The highest producer was a grade Shorthorn cow 9 years old, her production being 4333.3 lbs. milk and 231.99 lbs. butter, and the lowest producer was a grade Shorthorn cow 4 years old, whose year record was 2395.1 lbs. milk and 159.96 lbs. butter. There is also in the herd one grade short horn 2 year old that produced 2365.3 lbs. milk and 68.39 lbs. butter during her lactation period from April 6, 1921, to Sept. 9, 1921. She only produced 4 months and 15 days.

From the Vandenberg farm the tourists traveled to the J. W. Cotner farm, who is jointly interested with his brother, C. L. Cotner, in the farming and breeding of pure bred live stock on the Crescent Farms. At the J. W. Cotner farm there were two low producing grade Shorthorn cows. One of them 10 years old produced 3096.5 lbs. milk and 141.11 lbs. butter during the past year. This cow was the lowest producer in the circuit last year. The other Shorthorn cow 2 years old produced 3050.7 lbs. milk and 142 lbs. butter the past year. Jane, the 15-lbs. Holstein cow 6 years old made a very creditable record the past year with a production of 5550.7 lbs. milk and 301.03 lbs. butter.

What 13 Cows Did

The average production of the 13 cows kept at the J. W. Cotner farm for the past year was 4857.1 lbs. milk and 223.6 lbs. of butter. After some time was spent in seeing the pure bred Poland China hogs and the pit silo that was under construction the party drove on over to the Chas. Cotner farm where the young pure bred herd of Holsteins are kept. 604574, the young Pure Bred Hol-There was "Indi" (Coe) Surprise stein heifer who will not be 2 years old until Oct. 23. She calved April 30, up to date has produced 177.1 lbs. butter and 2955.5 lbs. milk, or over 2 gallons of milk per day that contains on the average per day 1.15 of butter and is still going on with her record. This young dam comes from the Surprise family of Holsteins at New Salem that have made some of the high records up there. This heifer's dam has produced 369 lbs. butter per year for the past 5 years, and her grand-dam has a record of 336 lbs. of butter per year for the past 7 years. The year average for the herd at the Chas Cotner farm was 5483.8 lbs. milk and 238.49 lbs. butter. The 7 pure bred heifer that Cotner Bros. purchased about a year ago at New Salem are developing and will give them a good foundation herd. Their dams average production for a year is 7801.08 lbs. milk and 388.4 lbs. butter. They have at the head of their herd an outstanding son of Sir Korndyke Glen 124834.

From the Cotner farm the tour went

West to Spring Creek Stock farm owned by L. A. Havens where he has the herd that ranked second in the circuit last year. The average milk and butter production. The average production for the 5 Holsteins last year was 5557.7 lbs. milk and 274.96 lbs. butter. The highest producer was "Duke" who being Drmsby 220358, who produced 8387.1 lbs. milk and 399.75 lbs. butter. At the dinner time (about the sight seems went to the Wm. Vogel farm where buns, sandwiches, doughnuts, hot coffee and the steam milk were waiting. After the dinner was over some time was taken up with speaking by Dr. McJahan.

Afternoon Tour

The next place on the program was "Pleasant Valley Farm" owned by Wm. F. Reynolds, who has a good dairy and produces milk for the manufacture of butter for the Mandan creamery. During the past week Mr. Reynolds shipped 26 10 gallon cans and 17 gallon cans of milk and the test ran from 4.2 to 5.6 per cent butter fat. During the month of June the herd produced 300, ten-gallon cans of milk. This dairy might be called the "Milky Way Dairy" for Mr. Reynolds is a heavy shipper of milk.

From the Reynolds farm the party traveled east to "Hillcrest Farm" to see the herd of Art Weekes. Mr. Weekes was raised on a beef cattle ranch but he understood that there was another kind of cattle that would pay profits, so he started to breeding Holsteins about 5 years ago with one pure Holstein cow and a few grade Holsteins, and now he has 5 pure bred females in the herd, of which are producing at the present time. The average production of Mr. Weekes 12 cows the past year was 5293.1 lbs. milk and 238.49 lbs. butter. The foundation cow "Sally Dakota Grmsby 277326" produced 6415.7 lbs. milk and 304.52 lbs. butter.

As the sun was setting in the west the tour went on its way to the Sawtell & Stowell dairy, to be there at milking time and to eat supper. These men have been breeding Holsteins for about 14 years and have now about 29 producing cows and a nice lot of young heifers coming on. The highest producer for the past year was "Pleasant Grove De Kol 266747" who produced 13058.8 lbs. milk and 510.35 lbs. butter. There also are 2 other cows in the herd that produced over 400 lbs. butter the past year, the average production of Sawtell & Stowell's herd being 7455 lbs. milk and 309.7 lbs. butter for the past year.

Among the Holsteins sent to the National Dairy Show at St. Paul from the Missouri Slope is Indi Rena Surprise 340678 from the Sawtell & Stowell herd. She has a year record of 8495.5 lbs. milk and 353.42 lbs. of butter.

COMPLETE LIST OF PASTORS FOR DISTRICT GIVEN

The Methodist Episcopal conference, which was held at Valley City, will meet in Mandan in 1922. The complete list of appointments of pastors for the Bismarck district, part of which were announced yesterday in The Tribune, follows:

- Bismarck District**
- District Superintendent, H. S. Harris.
- Ashley—L. T. Green.
- Heath—C. E. Van Horn.
- Bethel—Herbert Brown.
- Bismarck—S. F. Halfyard.
- Bowden—D. M. Lower.
- Bowman and Chenoweth — C. E. Fenton.
- Carrington—W. L. Bennett.
- Cleveland—Rev. Rockwood.
- Center—B. C. Madsen.
- Dawson—Adolf Lidthe.
- Dickinson—W. E. Vater.
- Douglas and Benedict—Thure Johnson.
- Emmett—F. W. Gress.
- Driscoll—Frank Petersen.
- Fort Rice—Harley Zeller.
- Grassy Butte Circuit — Alfred Boalch.
- Hettinger and Kansas City—F. W. Hedtke.
- Jamestown—C. L. Wallace.
- Linton—N. L. Rockwell.
- Mandan—W. R. Thatcher.
- Marmarth—C. E. Fenton.
- Mott—Ira MacFarland.
- McCluskey, Denhoff and Goodrich—William Schoffstall.
- McKenzie and Sterling—Guy Lewis.
- Napoleon & Burnstad—L. F. Green.
- Robinson—Miss Grace C. Bush.
- Rural—Harley Zeller.
- Fort Clarke, Hensler and Sanger—Ralph McNell.
- Steele and Sherman—F. W. Gress.
- Taylor and Gladstone—Virgil Merchant.
- Timmer Circuit — Mrs. Elizabeth Zeller.
- Turtle Lake—F. F. Boothby.
- Underwood—F. F. Boothby.
- Washburn, Fairview and Conklin—Leslie Bergum.
- Woodworth—Herbert Brown.

TOWN CRIERS OF DICKINSON ASK FARMERS TO DINE

Dickinson, N. D., Oct. 11.—In an effort to promote a closer community spirit and to ascertain the views of the farmers of the Dickinson community as to the most effective methods of mapping out an intensive campaign to promote the diversified farming movement, 27 farmers of the Dickinson community will be the guests of the Town Criers club at its regular dinner and meeting at the St. Charles Hotel next Thursday evening.

Each member of the club will bring a guest and after the dinner the evening will be given over to general discussion of the problems that confront the farmer and business man.

In its desire to be of the greatest service to the community the club hit on the above plan as a means of getting an insight into the farming conditions as they exist here in Stark county. After the meeting a definite plan of action to promote diversified farming will be mapped out by the club.

San Francisco motor car dealers plan the construction of a motor speedway.

CITY BUDGET IS ADOPTED

Commission Makes One Change From Ordinance as Introduced

The city commission last night passed the budget ordinance for the ensuing fiscal year, beginning September 1, 1921, with one change from the ordinance as introduced three weeks ago. The change increased the appropriation for the health department from \$1,050 to \$1,250, the \$200 being added to permit the purchase of an apparatus for testing milk.

The total amount of the budget is \$108,910.60. It will be certified to the county auditor.

It is probable that the county auditor will not fix the tax rate for city or county until the supreme court hands down a decision on the validity of the tax limit bill passed by the last legislature.

Bills were allowed last night by the city commission as follows:

| | |
|-------------------------------------|---------|
| R. P. Logan | \$ 8.55 |
| Capital Street Laundry | 7.79 |
| E. M. Stanton (Laboratory expenses) | 21.60 |
| Lawyer and Mills | 7.00 |
| Bismarck Motor Company | 3.11 |
| Street and Sewer payroll | 138.75 |
| Jas Snyder, (hay) | 14.91 |
| R. P. Logan | 45.00 |
| Pinch Lumber Company | 9.35 |
| Richmond's Bootery | 3.50 |
| Police payroll | 84.00 |
| E. J. Schultz | 26.50 |

FIRE DESTROYS HOME AT NIGHT

Dickinson, N. D., Oct. 11.—Fire, believed to have been caused by the explosion of a kerosene lamp destroyed the frame dwelling occupied by Charles Hurich, proprietor of the Ray Theater, on Tenth Avenue West, south of the Normal school site Friday night. The loss was total.

Mr. and Mrs. Hurich had retired for the night, leaving the lamp burning. When they awoke dense clouds of smoke filled the room, cutting off an exit through the door and they were able to make their escape only with difficulty through a window. A few minutes later the house lay in ruins. Mr. and Mrs. Hurich were only able to save a few of their personal effects, which they picked up as they made their hurried escape. They had moved into the place only recently.

LIVERY BARN OR SKATING RINK?

Devils Lake, N. D., Oct. 11.—The city commission has a problem to solve. It is whether a skating rink for the kids or a livery stable for farmer's teams is more essential in Devils Lake. Each will cost about \$1,500, and since the City commission cannot afford to have both, it is now trying to decide which should be tackled first.

For the past three or four years farmers have complained about there being no livery barn in the city to keep their teams while they are shopping in the city, and this year the protests have become so insistent that the city commission feels compelled to take some action in the premises.

PIONEER DIES IN CALIFORNIA

Dickinson, N. D., Oct. 11.—Dr. James Wiley Stribling, for several months during the summer of 1909, was associated with Dr. S. Fischer, in the practice of his profession here in Dickinson and who later gained the distinction of being the first physician in New England, died on Monday, September 26, of heart failure at South Pasadena, Calif., where he had been assistant superintendent of the Bishop sanitarium for the past two years.

He remained in New England until 1915 when he moved to Amidon and established a drug store. In 1918 falling health made it necessary for him to seek a milder climate. He was widely known in Stark county and, in fact over the entire south Slope. His widow and an aged mother survive.

LABOR OFFICES WILL BE KEPT

Two free employment offices will be maintained in North Dakota during the winter. It was said today at the office of Commissioner of Agriculture and Labor Hagan. These are at Fargo and at the state capital. All field offices with these exceptions and the Minot office will be closed by the end of this week. The Minot office is being kept open a few days because threshing in the Northwest part of the state was delayed by bad weather. The Grand Forks office is being kept open until Wednesday to provide laborers for potato harvest.

NEW STUDENT AFFAIRS HEAD.

Grand Forks, N. D., Oct. 11.—Dr. William G. Bek, professor of German at the University of North Dakota has been made chairman of the committee on student affairs in the absence of Prof. R. H. Cheek who is on a year's leave of absence. The position corresponds closely to that of dean of men in a larger school. In order to care for his new duties Dr. Bek has been relieved from his position on the athletic board of control which he has held for many years. Prof. H. A. Cook of the English department has been appointed to this board in Dr. Bek's place.

To bring the student affairs committee to its regular membership Dr. H. J. Humphreys of the psychology department, has been appointed to the committee.

SOLDIERS BONUS

Will take N. D. bonus claim as part payment for Essex roadster. See Augie, American Bowling, 5th St. Bismarck, N. D.

SOME SMILES

The Tripping Tongue.

Artist (meeting friend at exhibition)—Well, how do you like Brown's picture?

She—That one? Why, I thought it was yours—but since it isn't, I can speak freely. Miserable daub, isn't it?

And it wasn't until an hour later that she realized that she had given him a back-hander.

Conservation.

"What sort of business is Glipping in now?"

"He says he's doing a little something in oil."

"Remarkable!"

"Why so?"

"That's the first time I ever heard of an oil operator who didn't claim to be juggling with millions."

Preserving an Appetite.

"When I was a boy my parents did not allow me to read dime novels," remarked a serious citizen.

"Neither did mine," replied Miss Cayenne.

"I'm very grateful to them for not allowing me to indulge in sensational fiction to an extent that might spoil my taste for the modern motion picture thriller."

Importance of Little Things.

She—Just think of it! A few words mumbled by the minister and people are married.

He—Yes, and, by George, a few words mumbled by a sleeping husband and people are divorced.

And Then the Storm.

Modiste—Really, madam, this gown makes an entirely different woman out of you.

Customer's Husband—Take it, Helen—never mind the price!

Human Dynamo.

"That judge is a human dynamo. He electrified the courtroom during the trial."

"And what is he doing now?"

"Charging the jury."

NO INDEED

"So you wouldn't want to marry an old guy, eh?"

"Not if that was his only qualification."

A Trial Then.

A motor car is lots of fun Unless the blamed thing Will not run.

Hoping for a Benign Review.

First Show Manager—Do you believe in the influence of environment?

Second Ditto—Yes; on my first nights I always put the grumpiest critic in Seat B9.

Inexhaustible.

"They say that radium is constantly giving off particles of itself, yet it never gets any less."

"Goah! That's the kind of stuff for a bank roll."

Softened.

"I see you have a new office girl."

"No; it's the same girl. She blonded her hair."

"But when I called you over the telephone this morning her voice sounded different."

"Ah! She's in love now."

A Mere Trifle Nowadays.

"The largest contributor to our campaign fund wants his money back."

"Have you spoken to our candidate about that?"

"Yes. He wants to know what's a million between friends."

Extra Dry.

"Snoop, what did your literary club discuss last meeting?"

"Milton."

"Didn't you find him rather dry?"

"Yes, and our host had nothing with which to relieve the drought."

Saying it With Flowers.

Mr. Justified—I want to get a nice bunch of roses for my wife. How much will they cost?

The Florist—I can tell better if you'll describe the nature and violence of the quarrel.

What it Cost.

"Your wife looks stunning tonight, her gown is a poem."

"What do you mean," replied the struggling author. "That gown is two poems and a short story."

Had Been In Circus.

"Now you all understand," said the teacher, "that the trunk is the middle of the body, don't you?"

"That's in an elephant!" spoke up one youngster.

ST. JOHN'S TOMB SAID DISCOVERED

Paris, Oct. 11.—Archaeologists at work in the ruins of ancient Ephesus have discovered a crypt believed to be the tomb of St. John the Evangelist. It is said in a dispatch received here.

HARDING NAMES TRADE MEMBER

Washington, Oct. 11.—Geo. Upton, a Warren, O. business man, was nominated by President Harding today to be a member of the Federal Trade Commission. Mr. Upton, who succeeds John G. Pollard, a Democrat, is the husband of Harriet Taylor Upton, vice chairman of the Republican national committee.

FINLEY BANKER DIES SUDDENLY

Elmer E. Tasey, president of the First National Bank at Finley, N. D., died in a Minneapolis hospital yesterday morning, according to word received in Fargo today.

Mr. Tasey left Finley last Friday to attend the funeral services for his wife's mother. He was suddenly taken ill and removed to a hospital. Funeral services will be held at Finley Wednesday.

Deceased was a member of the Scottish Rite bodies and Shrine of Fargo, which organizations will be represented at the services by George H. Sweetland and A. H. Leimbacher.

MONTANA LIFE MAN HONORED

S. D. Cook, general agent of the Montana Life Insurance company, has received the following telegram: "It is with pride and pleasure that we announce the election of Mr. Cunningham to the office of president of the American Life Convention. This association comprises a membership of one hundred thirty eight of the most prominent and successful life insurance companies in the United States. In this recognition a high tribute is paid to the record and reputation of the Montana life and a very great compliment extended to its vice president and general manager whose energy enthusiasm and loyalty have played an important part in the progress of the company. We know you will be pleased with this information and join us in congratulating him upon this honor. Montana Life Insurance Co."

TAKES NEW JOB

Underwood, N. D., Oct. 11.—G. A. Sawyer took charge of the Northwestern Oil company's station in this city this week. Mr. McLaughlin, former agent for that company here, relinquishing the position on account of other business.

Addresses Ryder

Town Crier's Club

Ryder, N. D., Oct. 11.—President, C. H. McIntosh of the Associated Advertising Clubs of the World, with which organization the Ryder Town Criers Club is affiliated, will visit Ryder in Friday, November 11, and that evening address the Town Criers and invited guests at a banquet in his honor at the Freden hotel.

IT'S A GRAND OLD REMEDY.

You can't keep strong and well without sleep. Whether your rest is broken by a painful hacking cough or just an annoying tickling in the throat, the system becomes weakened and run-down. Mrs. K. D. Drake, Childs, Md., writes: "After an attack of the 'flu' I was left with a severe cough. Nothing relieved me till I used Foley's Honey and Tar, which I can highly recommend." It covers irritated membranes with a healing and soothing coating, loosens phlegm and clears air passages.

Adv.

Albert Horn, member of the Reichstag for 44 years, has never made a speech.

FOR RENT—Rooms in strictly modern house at 300 9th St. Phone 3773. 10-11-17

MOTHER, QUICK! GIVE CALIFORNIA FIG SYRUP FOR CHILD'S BOWELS

Even a sick child loves the "fruitly" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has colic, a teaspoonful will never fail to open the bowels in a few hours you can see for yourself how thoroughly it works all the constipation poison, sour bile and waste from the tender, little bowels and gives you a well-playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother, you must say "California" if you want an imitation fig syrup. Adv.

PIONEER AMONG N. D. EDITORS IN CITY ON VISIT

(Continued from Page One)

Col. Lounsberry's book, printed in handsome fashion contains many illustrations, and has attracted widespread attention and favorable comment from historical reviewers.

Book on Sale Here

Col. Lounsberry published The Tribune from its founding until 1884, when he left to engage in newspaper work in St. Paul, Minneapolis and Duluth. For four years he was special agent of the General Land office, working in all public land states. He returned to North Dakota and retained connection with the press in Fargo until 1905, when his duties in the public land work took him to Washington, where he is still active under the Interior Department.

Col. Lounsberry's book will be on sale at Harris & Co. in Bismarck, or may be procured of his daughter, Mrs. C. E. V. Draper of Mandan. Col. Lounsberry will return to Washington tonight.

HEAVY BATTING FEATURES GAME; 3 HOMERS MADE

(Continued from Page 1)

second. McNally fanned. No runs, one hit, no errors.

FOURTH INNING

GIANTS—Snyder singled past Peck. Barnes singled into left. Snyder going to second. McNally threw Burns' sacrifice hit widely and the bases were filled. Snyder and Barnes scored on Bancroft's single to left. Burns going to third on the throw-in. Burns scored when Frisch forced Bancroft to Peck unassisted. Frisch stole second. Young fanned. Frisch scored on Kelly's hit which hopped over Pipp's head. Kelly went out stealing. Schang to Ward. Four runs, four hits, one error.

YANKES—Schang walked. Shawkey struck out. Fewster walked. Peck struck out. Miller struck out. Barnes retiring the side on strikeouts. No runs, no hits, no errors.

FIFTH INNING

GIANTS—Meusel. Ward took Rawlings' slow hopper and threw wild to first. Meusel going to second. Snyder popped to McNally. Barnes fouled to McNally. Peck took Burns' grounder and touched second. No runs, no hits, one error.

YANKES—Umpire Moriarity sent Earl Smith from the bench to the clubhouse. Meusel walked. Pipp struck out. Ward struck out. McNally flied to Meusel. No runs, no hits, no errors.

SIXTH INNING

GIANTS—Bancroft flashed a single over McNally's head. Frisch walked. Young fanned. Bancroft was out stealing. Schang to McNally. Frisch went to second. It was a neat steal. Frisch scored on Kelly's bounding hit to center. Meusel flied to Fewster. One run, two hits, no errors.

YANKES—Schang singled into center. Shawkey forced Schang. Bancroft to Rawlings. Fewster struck out. Peck flied to Meusel. No runs, one hit, no errors.

SEVENTH INNING

GIANTS—Umpire Moriarity went over to the Giants' bench and cautioned them for coaching. He sent Hans Lobert off the field. Rawlings popped to Peck. Peck threw out Snyder. Ward tossed out Barnes. No runs, no hits, no errors.

YANKES—Young took Miller's fly. Meusel fanned. Rawlings threw out Pipp at first. No runs, no hits, no errors.

EIGHTH INNING

GIANTS—Burns hit a high one which Fewster took. Bancroft hoisted to Ward. Frisch fanned. No runs, no hits, no errors.

YANKES—Bancroft threw out Ward at first. McNally hoisted to Kelly. Schang walked. Baker batted for Shawkey. Rawlings threw out Baker. No runs, no hits, no errors.

NINTH INNING

GIANTS—Piercy went into the box for the Yankees. Young singled to left. Kelly fanned and Young was out stealing. Schang to Ward. Meusel singled to his brother in leftfield. Rawlings struck out. No runs, two hits, no errors.

YANKES—Fewster flied out to Rawlings. Peck popped to Rawlings. Miller also popped to Rawlings. No runs, no hits, no errors.

DR. CALDWELL'S SYRUP PEPSIN

THE FAMILY LAXATIVE

Dr. Caldwell's Syrup Pepsin is a compound of Egyptian Senna and other simple laxative herbs with pepsin. It works gently, is free from gripping, and contains no narcotics. Bottles can be had at any drug store, and the cost is only about a cent a dose. Just try it!

HALF-DOZ BOTTLE FREE

Free escape constipation, or even if you do not require a laxative at this moment let me send you a Half-Doz Trial Bottle of my Syrup Pepsin FREE OF CHARGE so that you will have it handy when needed. Simply send your name and address to Dr. W. B. Caldwell, 314 Washington St., Monticello, Ill. Write me today.

WORTH HAVING

And, it's worth insuring when you're SURE of A-1 Service and companies.

MURPHY

CALUMET

HAS RAISED A NEW STANDARD FOR BAKING POWDER

Because it's made in the most careful and scientific manner from absolutely pure materials that remain pure in the baking and insure wholesome, healthful food.

Because it possesses the greatest leavening power.

Because it is not affected by time or weather—it never loses its strength and never fails.

Because it is more economical—you save when you buy it and you save when you use it.

These are a few of the reasons why Calumet is the standard baking powder—the choice of millions—more being sold than of any other brand.

Try it—always buy it. Your grocer can supply you.

A pound can of Calumet contains full 12 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

'SAFETY FIRST' WEEK PROPOSED IN NO. DAKOTA

Railroad Commission Would Spread Idea of Stop, Look and Listen

The board of railroad commissioners announces, in its weekly bulletin, a proposal to designate the week beginning Nov. 14 as "Safety First" week, during which it is proposed to arouse people to the necessity of being more careful, and to stop, look and listen before crossing railroads. The commission urges that public schools observe the week in an appropriate manner; that essays be prepared by school students and that prizes be offered for the best prepared papers on this subject.

New cases docketed by the commission follow:

Application for commission to evaluate the property of the General Utilities Corporation at Casselton.

Ferry O. Arnold, et al. vs. McVillie Light & Power Co. Complaint of inefficient service.

Application of Great Northern Railway before Interstate Commerce Commission for authority to abandon a portion of its lines between Erie Junction and Portland Junction, Trail county.

Application for an underground crossing under the Northern Pacific tracks east of Carson.

R. C. Newcomer, county agent, Flasher vs. Northern Pacific Railway company. Petition for reduced freight rates to provide seed and feed for drought stricken district.

Interstate Commerce Commission filing. Fourth section application by the carriers to establish rates on various commodities.

Interstate Commerce Commission in re consolidation of railway properties in the U. S. into a limited number of systems.

Boston Wool Trade Ass'n vs. Great Northern, Northern Pacific, and Soo Line Railway companies. Petition for wool shippers to finish loading in transit at intermediate points.

Transcontinental Freight Bureau, I. C. N. 1773. Reduction on canned goods and dried fruit to points in North Dakota, South Dakota, Minnesota and Canadian points.

Board of Railroad Commissioners. Investigation of uniform system of accounts for gas utilities in North Dakota.

Application of the First National bank of Fingal for permission to buy and sell the Fingal Telephone Company.

Petition of Soo Line to close Nicholson station permanently.

Commission required Northern Pacific Railway company to construct a crossing protection on the south side of the main line of the N. P. Ry. Co. at the crossing at Gladstone, N. D. Same to be done not later than October 25, 1931.

Decisions of Body.

Cases decided follows:

Application of Lidgerwood Milling Company for continuation of present electric rates granted.

Electric rates of the Pembina Light & Power Company continued for thirty days, and investigation ordered of the adequacy of the street lighting rate.

Increased electric rates granted to the Page Light Plant.

Application of the Fingal National bank for authority to sell the Fingal telephone property granted.

Application of the Minot Farmers Co-operative Grain Elevator for authority to sell \$25,000 of stock granted.

Application of Pomona Valley Telephone Co. of Streeter to change service hours at Streeter suspended for 120 days.

Northwestern Bell Telephone Co. given authority to discontinue the telephone exchange at Omemee.

Application of the Page Light plant for authority to issue a \$3,500 mortgage granted.

RED CROSS RESCUED 600,000 FROM DEATH

Spent \$1,200,000 for Relief of Famine Sufferers in China Last Year.

To help overcome conditions of acute distress in five famine stricken provinces of Northern China, where millions of persons were affected by an unprecedented shortage of food, the American Red Cross during the last fiscal year spent more than \$1,200,000, \$1,000,000 of which was contributed directly by National Headquarters and the remainder by various groups interested in the welfare of China.

Through the wide relief operations thus made possible it is estimated that more than 600,000 famine sufferers were saved from starvation.

To the end that similar prompt relief measures by the organization may always be possible the Red Cross is asking continued support by the American people by universal renewal of membership at the Annual Red Cross Roll Call, November 11 to 24.

The method of relief employed by the American Red Cross in its operations in China was particularly effective, for in addition to saving hundreds of thousands of lives it provided China with more than 900 miles of permanent roads that are sorely needed to prevent a recurrence of famine. At one time the Red Cross employed 74,000 Chinese workmen, paying them in food for themselves and dependents, this food being brought in from Manchuria and elsewhere.

The Republic of Georgia, formerly part of Russia, contains 570 miles of railway.

FARMERS PRESERVE SPAIN FROM PERIL OF REVOLT

KING ALFONSO OF SPAIN AND QUEEN VICTORIA AND THEIR CHILDREN.

sons and sending them off to battle, but—the land is theirs and they wait no upset.

HELD FOR HANDLING LIQUOR

Minot, N. D., Oct. 12.—Walter Anderson, of Ryder, who has been held in the Ward county jail, charged with violation of the Volstead law, was released from the county jail, after he had furnished \$1,000 bonds to appear at the next term of federal court. Anderson was the man who was taken into custody by F. L. Watkins' men as he was crossing a field, carrying a moonshine still.

THANKFUL HE WAS NOT A WOMAN

The late Lawson Tait, of England, the great woman's doctor, said he never went to bed at night without thanking heaven he was not born a woman. No doctor ever knew better than he what women have to suffer at some times of their lives. It was an American woman, long since passed to her reward, who introduced a combination of roots and herbs called Lydia E. Pinkham's Vegetable Compound, that has proved wonderfully successful in mitigating suffering and relieving diseases of women. It has brought relief to thousands of women who suffered from female ills.

adv.

GENUINE Bayer Aspirin for COLDS

Warning! Unless you say "Bayer," you may not get genuine Aspirin prescribed by physicians for 21 years and proved safe by millions.

Accept only an unbroken "Bayer" package which contains proper directions not only for Colds, but for Headache, Pain, Toothache, Neuralgia, Rheumatism, Neuritis, Lumbago.

Handy tin boxes of 12 tablets—Bottles of 24 and 100—All Druggists. Aspirin is the trade mark of Bayer Manufacture of Monacalchemicals of Barmen, Germany.

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn. Instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes and the calluses, without soreness or irritation.

Land! Land!

shouted the sailors of Columbus' crew. It was the glad greeting of men who saw for the first time their new world. That glorious moment of discovery!

There are no more Americas to be discovered, but Americans discover daily new worlds in the benefits that come to them from their bank accounts. You are invited to join the company of the many who have made this discovery at the

term of G. I. Solum who died from injuries received in an automobile accident recently. The election came on the second ballot and a very even race between candidates was recorded. The new secretary was installed with due ceremony.

Secretary Weinhandl is well known in the city. He is one of the staff of the First National bank.

The Elks last night voted \$25.00 to the Salvation Army fund and also extended an invitation to the Boy Scouts to appear in a demonstration at the next meeting.

President May of the Dickinson Normal was present and delivered a talk on possibilities for the Elks lodge.

Dr. J. H. Plant who came to this city about four months ago from Killdeer, and who has been associated with Dr. F. E. Hunting since that time, left this morning for Hot Springs, S. Dak., where he has taken an appointment as junior surgeon in the big sanitarium which is being opened there by the United States government. The sanitarium is one of a number which are being established by the United States to care for disabled men from the forces participating in the world war. Mrs. Plant and sons will leave later.

Miss Josephine Myer left last night for Detroit Michigan and New York where she will visit relatives before returning to her home at Oakland, California. She has been a guest of her aunt, Mrs. William Simpson for the past two weeks.

Mrs. D. G. Filkins and son Danny and her sister-in-law Miss Fannie Filkins arrived yesterday morning from Eagle Grove, Iowa. They spent the summer visiting relatives in Iowa.

Mrs. John F. Sullivan was hostess at a tea Monday afternoon in honor of Mrs. W. W. Fuller, of Fargo.

Mrs. L. C. L'Moore of Jamestown is a guest at the home of her daughter, Mrs. F. H. Waldo.

Mrs. J. K. Porter has gone to Dickinson on a several days visit with friends.

Mr. and Mrs. Lewis F. Lyman announce the arrival of a baby daughter.

INDIANS TO FORM POST

Elbowoods, N. D., Oct. 12.—Organization of a post of the American Legion is scheduled for a meeting to be held in the Fort Berthold Indian reservation near here on Oct. 14-15. Philip Bangs of Grand Forks, commander of the North Dakota de-

Mrs. Rose M. Brown Gained 20 Pounds In Four Weeks Time

Declares It's Simply Astonishing To See The Wonderful Benefits She Has Derived From Tanlac—Says Terrible Headaches Have Disappeared.

MRS. ROSE M. BROWN.

"It sounds unreasonable, but I have actually gained 20 pounds in less than a month's time by taking Tanlac, and the wonderful benefit I have derived from the use of this medicine is simply astonishing," said Mrs. Rose M. Brown, 111 Third Street, Manchester, N. H.

"Why, I am so happy to be relieved of my troubles I can really never praise this medicine enough. Up to the time I began taking Tanlac, I suffered for something over two years with a very bad form of stomach trouble.

"My appetite was so poor I could scarcely eat a thing. My stomach would be so badly bloated with gas sometimes I was almost afraid to go to bed for fear I would actually smother. I felt tired and worn out most of the time and became terribly discouraged over my condition. I often had such violent headaches I was unable to be out of bed for two or three days at a stretch.

"Four bottles of Tanlac completely restored my health and anyone can see at a glance the wonderful change that has taken place in my condition. I have a splendid appetite now and the stomach trouble has entirely disappeared. I can eat just anything I want without ever feeling a sign of indigestion. The best of all, I am never bothered any more with head-

partment of the American Legion, has deputized Major A. B. Welch of Mandan, to organize the post. The

aches and this was the greatest relief of all. I want to tell everybody what this medicine has done for me."

Tanlac is sold by leading druggists everywhere.

A Vision of the People's Good

IN his issue of September 22, Mr. H. A. Sturges, Editor of the Republic of Beresford, S. D., prints the following editorial:

"The Republic has carried for a long time a series of messages in the form of advertisements, ordered and paid for by the Standard Oil Company (Indiana). There is a notion on the part of many that everything that a corporation does is of a selfish nature, and that there never is a vision of the people's good. These messages have carried an entirely different tone, and we believe they are worth reading from week to week. The data this week is very interesting."

The recognition of the sincere effort which the Standard Oil Company (Indiana) has put forth through these advertisements to inform the public as to its purposes, policies, and ideals, is gratifying.

In the opinion of the seven Directors of this organization, the business of this Company should be, and is, an open book.

The Standard Oil Company (Indiana) is an institution performing an essential service in a highly specialized branch of industry.

This Company is owned by 21,188 individuals, not one of whom owns as much as 10 percent of the capital stock.

The management of this Company centers about seven men, who constitute the Board of Directors. Each one is a specialist in one or more branches of the petroleum industry, and devotes all of his time to the business and affairs of this Company. Not one of the Directors has inherited his job; he has earned it.

Individually, and collectively, the Board of Directors believes that the business in which this Company is engaged is so vital, so important to the commercial and domestic life of all the people of the eleven states it serves, that they have caused to be published this series of advertisements, that the people may know how the business is being conducted.

Further, the 25,000 men and women who make up this organization are putting forth such enthusiastic, painstaking efforts to do a good job for the Company, and, in turn, for the people, that the Directors are glad to tell the public what is being done.

Through these advertisements they are giving an account of their trusteeship to the people frequently, as they do to the stockholders annually.

This is the purpose of this campaign of advertisements, on which the publisher of the Beresford Republic has seen fit to comment favorably.

THE STATE'S OLDEST NEWSPAPER
(Established 1873)

COLUMBUS DAY

October 12 is the 429th anniversary of the discovery of America by Christopher Columbus. All over the world it is celebrated as Columbus Day.

What Columbus sought was a short-cut route to India, by way of the westward ocean.

What he discovered was more than a continent, it was a turning-point in civilization and government.

When the fearless Italian navigator landed on the Island of Guanahani, West Indies, in the early morning of October 12, 1492, he opened the door of the land that made government by the people possible.

Gold lured the early explorers of America. But it was refugees from European political oppression that built the foundations of the mighty civilization that has risen on the American continent.

Individually, and as a nation, we owe a tremendous debt to Christopher Columbus. And let us not forget the queen who pawned her jewels to finance his venture into the uncharted Atlantic Ocean.

YOUTH

When you are discouraged or have the blues, think of the graveyard. In a twinkling, you will brighten up, be glad you are alive at any price.

Life is sweet. Scientists say that man some day will live to an average age of at least 150 years. No doubt, they think that is good news.

But is it?

Much as you love life, would you care to live to 150? If so, how about 200, 300 or 1000?

Most old folks, who live beyond 90, go to death with a smile on their lips. They have tasted life in all its forms. Wearied, they yearn for the hereafter.

At what age does the vaudeville show called life become monotonous? Talk it over with grandpa.

Numas De Cugna, famous in Hindu history, died at Bengal in 1556, when he was 370 years old.

It's too bad there is no record left of him except tradition. What answer do you think you'd get if you could call Numas up on the ouija board and ask him this:

"Numas, at what age did you weary of life? When did the stupidity of humans, making the same mistakes century after century, begin to get on your nerves? How did it seem to find all your friends dead, time after time, while you stayed on? If you had to live again on earth, wouldn't 100 years be enough?"

Numas probably would say, "I found my life interesting at times, even in old age. But the first 30 years, my youth, were better than all the 340 years that followed."

Youth is life—all of life that is really worth living. Years that follow may be interesting, but they would be dull without the thrills that come from the memories of youth.

Conrad summed it all up in an allegorical story about the sea of life when journey's end is in sight:

"Ah! The good old time—the good old time! Youth and the sea. Glamour and the sea! The good, strong sea, the salt, bitter sea, that could whisper to you and roar at you and knock your breath out of you.

"By all that's wonderful, it is the sea, I believe, the sea itself—or is it youth alone? Who can tell? But you here—you all had something out of life: money, love—whatever one gets on shore—and, tell me, wasn't that the best time, that time when we were young at sea; young and had nothing, on the sea that gives nothing except hard knocks—and sometimes a chance to feel your strength?"

CONSUMERS

In a recent speech, Andreas E. Burkhardt, president of the National Association of Retail Clothiers, blamed the "buyer's strike" on newspapers and bankers, claiming they encouraged the public to refrain from buying.

Not so! The so-called "buyers' strike" was due simply to a situation in which combined retail prices exceeded the buying power of the public. A 50-cent article could be bought with four dimes.

HUMAN

At Prince Albert, Canada, J. Harris gets a package of cigarettes mailed to him from England when he was a soldier in the South African war in 1903. Occasionally you read of similar postal delays

in our own country. These are exceptions among many millions of missives delivered promptly.

Remarkable feature is how government post-offices stick to the job for years until the "lost" mail finally is delivered. Under private ownership, pursuit of the addressee would be abandoned early.

RECORD

At Dayton, Ohio, Lieutenant McCready goes up in an airplane 40,800 feet above ground, the highest ever reached by the thousands of billions that so far have lived on earth.

Then gravity made him come down. Watch for the next big development in aviation—an invention to counteract the law of gravity. When we get that, we will fly unlimited distances out among the stars, electricity sent by wireless furnishing the power.

Oceans used to keep man jailed on land. He got out by inventing the boat. Now earth is man's prison. He may soon escape.

AESOP

The Greek Slave, Aesop, about 2500 years ago, wrote philosophical fables so profound that they won him his freedom and have traveled on through history without an equal.

Now these fables are making a big hit in the movies, proving that the average American has a philosophical mind.

The Aesop Fable movies are illustrated by comic pictures, which help popularize them. Headache science could be popularized by re-writing it in the language of ordinary folks. The vehicle of expression is as important as the message, if results are sought. All people crave knowledge.

COPPER

Copper prices advance a trifle. That cheers an industry that has been nearer dead than any other.

Better days are ahead for copper.

Steinmetz has learned how to send 1,000,000 volts 1000 miles. That means, we are close to the Electrical Age, when electric power will take the lead away from coal and gasoline. Water power will be harnessed. Coal will be burned at mines, turned into electric current for transmission to distant points.

The Electrical Age will depend on copper. Few industries have such a future.

MOVING

Minneapolis people are bringing their household goods back from a summer colony 18 miles away, by parcel post.

It's an experiment, working successfully, by E. A. Purdy, who runs the Minneapolis postoffice. Will Hays says Purdy is the best p. m. in the world.

Some of the articles moved by parcel post truck: Refrigerators, mattresses, lawn mowers, trunks, baby carriages.

Watch Purdy's experiment. It may mean another step forward in parcel post. Maybe, in a few years, when moving day comes, the owner of the van that will back up to your house will be Uncle Sam. Why not?

EGGS

Two hundred eggs are consumed yearly, in the United States, for each man, woman and child. In England, the average consumption is only 93 eggs, says National Poultry Council, London.

That is a pretty good ratio for comparing the standard of living in the two countries.

We Americans are better off than any other people. We do not realize it, until we compare our lot with other nations.

EDITORIAL REVIEW

Comments reproduced in this column may or may not express the opinion of The Tribune. They are presented here in order that our readers may have both sides of important issues which are being discussed in the press of the day.

ANOTHER FUNSTON

It is just a routine announcement—that the President has designated Frederick Funston of San Francisco to take the West Point entrance examination on March 7, 1922—but it will touch a tender chord in a good many breasts. Young Funston is the son of as brave, as brilliant and as typical an American soldier as we have had in recent years. In the height of his powers, in the flush of his manly years, General Frederick Funston was stricken down just at the moment when his highest and noblest ambition might have been realized. His death occurred on Feb. 19, 1917, just as the nation was drawing its sword for entrance into the great war.

No American soldier had ever made good in so astounding a way, perhaps, as Funston did. He had been a newspaper reporter, the nature of whose adventurous duties led him into actual military service in Cuba. His military talent was proved on many fields. He was a soldier of the old dashing and "inspired" type. But he solidified, so to speak, into an able regular commander. No one doubts that he would have acquitted himself brilliantly even in the type of static warfare that we had in France.

If there is anything in the inheritance of military talents—and many examples prove that there is—we may expect much from this younger Frederick Funston, and we may be sure, from parental influence as well as from inheritance, that he will be a man of patriotism and spirit.—Boston Transcript.

ADVENTURE OF THE TWINS

By Olive Barton Roberts

When the Twins heard Cukie (Cotton-Spinner) say that he had eaten the Fairy Queen's pink pearl, they couldn't speak for amazement. The idea! That such an ugly shapeless, conceited member of the Wiggelin family should dare to touch the lovely pearl that Silver Wing, the Fairy Queen's messenger, had dropped into the sea by mistake.

There they were, bound hand and foot by the long white threads that Cukie had so quickly and unsuspectingly woven around them. And nothing did a bit of good. Their Magic Green Shoes and the Silver Badge were of no use at all now that they were tied so securely.

"What are you going to do with it?" asked Nancy, finally, wondering what Cap'n Pennywinkle, the fairy policeman would say when he heard where the wonderful pearl was.

"Oh, just keep it and look at it every-thing with a stick," grinned Cukie. "I like pink and like pearls, therefore, I've always wanted a pink pearl!"

"But," said Nancy, "how can you look at it when you said you had eaten it? You haven't got eyes inside of you, have you?" She was getting so accustomed to the sea-creatures having all sorts of queer accomplishments, that she would not have been surprised if he had answered that he had.

"Ha, ha, ha! That's a good joke," laughed Cukie, blowing himself up into a ball again as he had a habit of doing. "No, I haven't eyes inside, but I can turn my tummy outside. See!"

And what do you think, that silly old cotton-spinner, coughed out his stomach, just as he said, wrong-side out, and the pink pearl rolled out on the bottom of the ocean.

"Oh," exclaimed the Twins. Never had they seen anything so surprising.

PEOPLES' FORUM

Glen Ullin, N. D., Oct. 12, 1920.

Dear Editor:

Nestor might make a very good governor and he might make a very poor governor. With Frazier we know what we got! I know many farmers that are of the opinion and reasonably satisfied that state owned industries are like all the Townies and Lemke enterprises. Lemke ought to be removed, because he is of the same pattern as Trotzky, willfully misleading the people.

J. J. NAGEL.

DECISIONS OF SUPREME COURT

From Burleigh County

W. J. Dyer & Bro., a corporation Plaintiff and Appellant.

Arthur Bauer, Defendant and Respondent.

SYLLABUS:

The plaintiffs sue to recover the balance due on a \$3000 promissory note, given for a secondhand football player. The defense is a warranty of quality and fitness, express and implied, and a breach of the same. The jury found a verdict for defendant for \$100. Held that the plaintiffs have had a fair trial and the verdict is well sustained by the evidence.

Appeal from a judgment of the District Court of Burleigh County, Hon. J. A. Coffey, Judge.

AFFIRMED.

Opinion of the Court by Robinson J. Grace, Ch. J., concurs in the result.

Christianson, Bronson, JJ., concurring.

F. E. McCurdy, Bismarck, Attorney for Appellant.

Newton, Dallam & Young Bismarck, Attorneys for Respondent.

NEW DIRECTOR IN CHARGE

Grand Forks, N. D., Oct. 12.—Dr. E. T. Skanner, newly appointed director of the state public health laboratory at Grand Forks, has arrived to take up his duties. Dr. Skanner comes here from Cuba, where for the past year he has had charge of a government project fighting malaria. The new director of the state public health work has had considerable experience in various phases of public health and sanitary medical work. He has spent 15 years in government service including five years in the canal zone and periods of varying length in Honduras, the Philippines, Cuba, the Amazon country in South America and other places. During the war he had charge of the sanitation work at Camp Jackson, S. C., holding the rank of major in the medical corps.

The Sudbury district of Ontario, Canada, furnishes 85 per cent of the world's supply of nickel.

EVERETT TRUE BY CONDO

JUST FUN

Why We Snorted.

We sat in front of them at the theater. It was during the tense minute of the play when the heroine was about to part forever from her sweet heart.

"I," said the woman behind us to her friend, "do you break many dishes? You know I'm awfully unlucky that way."

Why Look for Trouble?

"Did you ever have any words with your landlord?"

"I once exchanged a couple of brisk notes with him."

"What did he have to say?"

"He informed me he had a great deal to say, but I never went around to hear what it was."

Many Chances.

North—Do you think there are the opportunities in this country that there used to be?

West—Certainly. For instance, the population of the United States is 105,000,000, yet the seating capacity of the moving picture shows is less than 50,000,000.

Different Calculation.

"What do you understand by the problem of unemployment?"

"I have only studied a few individual cases," replied the sardonic citizen. "In these the problem seemed to consist in figuring how to do as little work as possible without going broke."

Better Authority.

"It was Shakespeare, wasn't it, who said 'Sweet are the uses of adversity'?"

"Shakespeare may have said it originally, but I heard it from a lawyer who had pocketed 65 per cent of an estate."

How He Wanted It.

"Any special way you want your hair trimmed?" asked the barber.

"Yes, with the scissors," replied the crusty patron. "If I wanted it trimmed with passermenterie and a bird's wing I'd have gone to a milliner."

HE'S LUCKY

Polar Bear: Thank goodness the price of ice hasn't gone up around here yet.

Facing Facts.

It showed several weeks. On the lip with great persistence, Comes to him the thought—"My life is just a hand to mouth existence."

Nothing but the Truth.

Maudie—How did you dare tell papa that you had a prospect of \$50,000 a year?

Frank—Well, I have, if I marry you.

Remodeled.

Ethel—Who was that new girl I saw you with last night?

Jack—That wasn't a new girl. That was my old girl painted over.

The Newer Styles.

Shapleigh—Your dressmakers' bills are ruining me.

Mrs. Shapleigh—I'm doing the best I can, my dear. I get along with about half the clothes I used to wear.

Sealed Tight.

Henry Carr—I thought you knew all about this engine.

Billie Carr—if I could get this pesky thing open I could fix it all right, but I forgot to bring a can opener.

In After Years.

"You can't head off a man with literary trend."

"Heh!"

"Our class poet is now writing life insurance."—Courier-Journal.

The Necessary Charm.

Husband—if I should die, would you marry again?

Wife—I don't know whether I could or not. How much money do you expect to leave me?

Versatile.

"Woman is versatile, by heck."

"How, now?"

"It's one man's life by not marrying him and another's by marrying him, by heck."

Summer Board.

"Yes, I boarded with that farmer all last summer."

"Seems a quaint character. I suppose he has bought a gold brick?"

Fine for Writers.

Inspiration ink—It flows freely. This is a sign we have never seen, but we hope to see it some day in a column story.

The xanadu process in mining gold and silver was first introduced in South Africa in 1894.

More than 800 national banks were in operation at the beginning of this year.
